Preventive Maintenance Planner

Equipment profile

Carrier / unit / VIN

Year / make / model / service type

Current odometer / engine hours / date

Maintenance contact / phone

Choose intervals for this unit. Account for duty cycle, idle time, environment, equipment age, and manufacturer recommendations. Use the earliest applicable trigger when service is due by date, miles, or engine hours.

Planned service schedule

Service / inspection	Interval / basis	Last completed	Next due

Periodic inspection tracking

Last inspection date / report location

Next inspection target / scheduled provider

Items requiring attention

Issue / proposed action	Owner	Target / resolved

Do not defer a safety defect to the next scheduled PM. A completed planning sheet does not certify roadworthiness or substitute for required inspection / repair records.
